

CLOUD IMMERSION

Integrated technology asset management in the cloud.

Why Cloud Immersion is the best option for your business?

Infrastructure availability and stability

Time improvement and a higher stability. Therefore, higher availability in applications and infrastructure.

Applications and operation efficiency, better times and higher-level support

High availability, mitigation of points of failure and better potential in applications. Therefore, less concerns at the operations.

Massive economies of scale

By using cloud computing, you can achieve a lower variable cost than you can get on your own.

Depth and focus

Cloud Immersion, by Pyramid Consulting, is a Premium full-service management for SAP Applications and Cloud Services.

We offer solutions at different levels. We are starting from a deep dive to: Discover and understand the current business and resources. We are going to be Learning about the company core business industry and, using those Knowledge, we will be building one journey for all the transformation power of the cloud. Understanding and implementing innovative technologies in each cycle of cloud computing.

Whole Solutions and services adapted for consumers needs

Our immersive methodology covers strategy, design, construction, migration and manages the whole cloud lifecycle.

-  Platform migration (SAP On Premise or in another private datacenter or Cloud) to GCP and AWS public cloud services.
-  Cloud Administration (includes: Infrastructure requires, Operating system, databases and / or applications) for SAP "All in One" and "Business One".
-  Migration of NON-SAP workloads (any platform and Operation system* has to be compatible with cloud services).
-  Optimization for SAP Applications over Cloud platforms.

Key questions

The Cloud Immersion implementation offers an opportunity to transform your business deeply. However, it is necessary to consider some questions first.

- How would TCO (Total Cost of Ownership) be reduced?
- What is the best architecture for the business applications?
- Who are the best players that provides "end-to-end" management services for SAP applications and public cloud services?
- How do you ensure security risk and compliance management in the public or private cloud?
- Do you have any previous experiences related to the current project?
- Who accredits their experience and knowledge in cloud services?

Why Pyramid Consulting®?

- Pyramid Consulting® has a specialized, certified and an experienced team to carry out deployments of different Cloud Services.
- Pyramid Consulting® works together with the main Cloud Services like "Amazon Web Services" (AWS) and "Google Cloud Platform" (GCP).
- Pyramid Consulting has a complete service to understand, analyze, create, make and manage global projects. Therefore, manage resources and human talent for a flexible support.
- More than 15 years with SAP solutions and more than 6 years with Cloud Services experience.
